

Summary Plan for Nonylphenol and its Ethoxylates

Nonylphenol and its Ethoxylates

Many CAS IDs:

84852-15-3 – 4-Nonylphenol

26523-78-4 - Tris(nonylphenol)phosphite

Material as used by Tremco Canada Division, RPM Canada
220 Wicksteed Ave., Toronto, Ontario M4H 1G7

NIACS Codes:

325510 – Paint and Coatings Manufacturing

325520 – Adhesive Manufacturing

Contacts

Ken McCallum – Environmental Coordinator

416-467-2447 ext. 2271

Sewnauth Raghunandan – HSE Manager

416-467-2447 ext. 2332

Paul Valadao – Director of Canadian Operations

416-467-2447 ext. 3499

Summary

The RPM Building Solutions Group (BSG) is committed to protecting the environment, preserving the health and safety of our employees and communities, and assuring the safe operations of our processes. As such we continue to work to reduce the use of Nonylphenol and its ethoxylates.

The 4-Nonylphenol Direct usage is into polymers 150635, 150692T, 150763T where it is totally consumed.

The Tris(nonylphenol)phosphite is used as an antioxidant ingredient in sealants to prevent the sealant form failing over time.

Options Implemented

Reformulation for reduction

The 4-Nonylphenol is in the process of being reduced as the product is replaced by a different polymer using a hightbred curing mechanism. This change will take time as contractors adapt to the handling characteristics of the newer product.

Timelines

As of Dec 13 2013 *****, I certify that I have read the toxic substance reduction plan for Nonylphenol and its Ethoxylates and am familiar with its contents, and to my knowledge the plan is factually accurate and complies with the Toxics Reduction Act, 2009 Ontario Regulation 455/09 made under the act.
